MEETINGS NOTICE

WHEN: Monday 27th August, 1990 at 8:00 pm

WHERE: Radio 3EA / SBS Television
Level 4
Australian Ballet Centre
2 Kavanaugh Street
South Melbourne Vic 3205

ALL MEMBERS AND VISITORS WELCOME

SUBJECT: Mr. Peter Smerdon, Technical Manager will conduct a technical tour of the 3EA/SBS Television's new facilities.

These new facilities are a vast improvement over the Previous Bank street studios where 3EA began broadcasting in the 1970's.

The 3EA/SBS tour is an opportunity to visit a National Broadcasters operation with a different aspect on broadcasting.

All members and their visitors should assemble in the foyer of Radio 3EA before 8:00pm, where the tour will commence at 8:00pm sharp.

AES members who have not attended our meetings in the past may find this tour a good opportunity to get started.

Have you a topic, tour or demonstration that would be of interest to members? Have you an audio industry visitor from interstate or overseas who would be prepared to include a presentation for an AES meeting? If so, please let us know. We can provide the venue if needed. Phone, fax or write to your AES office or any committee member.
