Meeting Notice

- When:** Monday 26 October
- Time:** 8 pm
- Where:** Tower Hotel
- Subject:** *Spend an Evening with "TED the Editor"*

Des Silvester - Marketing Manager of Arlcom and Tim Shuttleworth - Engineering Manager will be on hand to demonstrate the Digital Audio Laboratories TED editing system. This consists of A to D/D to A converters in a one slot format and software for use on an IBM system.

Hard disk recording can be carried out at three rates - 32, 44 and 48 kHz. Editing functions are carried out using pull-down menus from the on-screen editor.

At the end of the presentation, there will be an opportunity for "hands-on".

Vale: Stephen Temmers

Stephen Temmers passed away on Thursday 8th October after a long illness. Stephen was the Vice President International in 1974 and was actively involved in the formation of the Melbourne and Sydney Sections of the Society.

Since then he has been a frequent visitor to Australia and was always willing to address Section meetings whilst here.

One of Stephen's many contributions to the industry was translating the Tonmeister book from German to English. The City of New York appointed Mr Temmers as their official audio consultant.

Stephen will be missed for his warmth, extensive knowledge and his kindness. Our condolences are extended to his family and friends.

Next Meeting

The next meeting will be held on November 23rd and will incorporate the Annual General Meeting at which there will be an election of office bearers. Nominations for Office Bearers and Committee members should be directed to "AES Election" PO Box 149 Ashburton VIC 3147 and should arrive no later than October 20th.
